DEAR FRIENDS,

As your Member of Parliament for Saskatoon West, I have talked to thousands of my constituents at their doorsteps and by telephone during 2021. I heard time and time again that you are ready to move on with your lives.

Parliament finally resumed in late November after being shuttered for six months due to Justin Trudeau's vanity election campaign. I want you to know that I will be at the forefront in Ottawa communicating your concerns to the Liberal government. It is a job I take seriously.

Once again—as it was in the previous Parliament—it will fall to Conservative MPs to hold the Liberal government to account. Unfortunately, the NDP has stated their intention to support Justin Trudeau's government for the next 2-3 years, which means Trudeau essentially has his majority that he always coveted. With the NDP playing the

submissive partner to the Liberals, it makes my job as your Conservative MP even more important as we hold the Liberals to account.

I invite you to respond to my survey card attached—no postage required! I read each response personally and value the feedback that constituents share with me. If you need my help on any federal issue, please contact my office at (306) 975-6555 or email: **brad.redekopp@parl.gc.ca**. Thank you again for entrusting me with the honour and privilege to represent you in our Parliament.

Sincerely,

Brad Redekopp, M.P. Saskatoon West

You have probably noticed that when you go out shopping, for the gifts you gave at Christmas or the food you put on the table, the price of everything keeps going up.

IN SASKATOON, seniors' pensions are being eaten away, families are barely making ends meet, and our working class is left in the dust from continuous tax hikes under the Liberal-NDP coalition government in Ottawa.

This inflation crisis affects everyone, and it isn't going away anytime soon. An analysis of grocery store flyers from stores in Saskatoon West from December 2020 to 2021 shows an **increased price of 15-30%** for most foods in the past year.

In the past year fruits and vegetables are up: bananas by 20 cents/lb; oranges and apples by several dollars. Ground beef is now approaching \$5/lb. Chicken is up to \$9/lb, and 2 litres of milk costs \$5.

For 2022, it has already been announced by the government that inflation on milk is set to increase by 8.5% throughout Saskatchewan. Aren't milk, cheese, and butter already too expensive? At this rate, people in Saskatoon will soon be paying \$6 for a two-litre carton of milk or \$7 per pound for butter like they already do in Ontario!

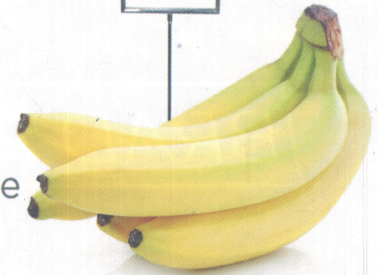

Do you need to fill up your car to get to work? Gas prices are up 40% compared to last year. For you, that translates

Canadians are about to face

into a \$250 price increase per year just to get to work! And the Liberals have committed to another massive hike in gas prices come April 1, 2022.

The Liberals and the NDP aren't going to stop here either: The mini-budget that both parties rammed through Parliament—ten days before Christmas—committed to raising taxes and making life less affordable for Canadians!

Erin O'Toole has a plan to make life more affordable. The first step is to get government spending under control, and stop printing money like it is going out of style. Conservatives will restore investor confidence in Canada to get our economy going again.

We'll encourage companies to create more jobs right here in Saskatchewan to avoid future supply chain disruptions. Canada has faced this situation before, and it was a strong, Conservative government that got Canada growing last time—and we will do it again.
